

NTC temperature probe, thermistor 3950, 1%, 1m

Reference: AM6433

EAN13: -

UPC: 90321020

Product attributes:

Resistance: 5K, 10K, 20K, 50K, 100K, 2K

Product features:

Cable length: 100cm

Connector: XH2.54 - 2pin

Waterproof grade: IP68

Product description:

Temperature probe (thermistor) 3950

Resistance (depending on variant): 5k, 10k, 20k, 50k, 100k

Stainless steel case

Measuring range: -55°C to 125°C

B-constant: 3950K \pm 1%

Typical dissipation: 5mW/°C

Probe isolation: >100 mOhm

Connections: Red (VCC), Black (GND)

Cable length: 100 cm

Probe size: 5x25mm

Connector: XH2.54mm - 2pin

Protection: IP68

NTC 10k is most often used (in most devices)
